

AADIL HUSSAIN KHAN

System Design Researcher & AI Engineer

@aadilhussain55777@gmail.com +91 9039271059 Raipur, Chhattisgarh, India aadil.vercel.app
@aadilhussain786 Ahussain Aadil-hussain-786

EXPERIENCE

System Design Researcher

PayLift

Feb 2026 – Ongoing Chennai, IN

- Architecting scalable system designs for urban mobility solutions.
- Leading application development with a focus on efficiency and safety.

AI Lead

Google Developers Group SSIPMT

June 2024 – Feb 2026 Raipur, IN

- Directed Machine Learning initiatives and LLM engineering projects.
- Orchestrated technical workshops for large-scale developer communities.

PROJECTS

BharatLLM

70B Parameter Regional Language Model

Python, PyTorch

- Developed a high-intelligence model specialized in regional logic, decision making, and code generation.

Rockfall Detection

Computer Vision for Mining

Node.js, React, Local LLM

- Built an API-less full-stack drone surveillance system for open-pit mining safety.
- Integrated real-time image capture with edge-native analysis and dashboard visualization.

PUBLICATIONS

The Theory of Deep Learning [Book]

PHILOSOPHY

"Consistency is the catalyst for achievement."

MOST PROUD OF

Top 25% Linux Developer
Ranked in the top quartile globally in Linux systems and kernel-level shell scripting assessments.

Tensorflow Certified
Professional certification by Google in advanced Deep Learning and Neural Network architecture.

STRENGTHS

Python JavaScript Rust
System Design Machine Learning
NLP LLM Ops Web 2.0
Docker AWS Git

LANGUAGES

English
Hindi

EDUCATION

B.Tech in Artificial Intelligence
SSIPMT

Sept 2023 – June 2027

Thesis: Emotional AI using Graph-Transformer Fusion.
